Dear Avi Abelow,

Thank you for the unique and wonderful opportunity you offered us here in Plainview to see "Home Game". The movie was both moving and inspiring. It gave us an in-depth and singular vision of the last days of Gush Katif, images and impressions that will resonate for a lifetime.

The experiences of the residents of these communities, their commitment, as well as the valor and respect of the members of the Israeli Defense Forces continue to inspire the many members of our community. Whether on the political "right" or "left", all exited the film with a deep sense of empathy, galvanized, and inspired to do more for the Jewish world in Israel and throughout the world.

Your words on Shabbat as well were thought provoking and appreciated. The experience of seeing the movie was certainly enhanced by the opportunity to get to know you, the producer, and benefit from your passion and love for the Jewish people.

We wish you much *Hatzlacha* in your endeavors and hope to have the opportunity to host you again and gain from your creative and inspirational projects.

Sincerely,

Rabbi Elie Weissman
