Dear Avi,

On behalf of the faculty and students of Machon Maayan, we wanted to thank you for the beautiful presentation you made relating to the movie, "Home Game", which you produced.

Home Game is an incredible educational tool that gave the students tremendous insight into the human tragedy that transpired during the Disengagement from Gaza in the summer of 2005.

Thank you for taking the time out of your busy schedule to answer the many questions that our students posed to you after they viewed the movie. Your unique speaking ability and warmth helped our students connect and understand the reality of this unfortunate upheaval with a great deal of clarity.

Thank you again,

Administration of Machon Maayan
